

CEI ONLINE CLASSES

SIGN UP FOR THESE SPECIAL CLASSES STARTING IN JANUARY 2021

MASTERING SOFT SKILLS FOR SUCCESS

This course focuses on workforce readiness and the six key skill areas important to employers: communication, enthusiasm and attitude, teamwork, networking, problem solving and critical thinking, and professionalism.

COOKING 101

It's time for a crash course in cooking basics for breakfast, lunch, dinner, and of course dessert. Cook along with us or sit back, watch, learn and create a DIY cookbook.

ARTWORKS ONLINE

Each week we'll practice some art skills by following along with video tutorials, sharing and playing music together, and showing off our artwork. Each participant will get a free artist sketchbook to use every week.

CREATIVE CRAFTS

Get crafty with us! Create a different seasonally inspired DIY project with this twice a week class. Give your masterpiece away as gifts to others or keep for your own enjoyment.
